Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. This application contains claims 9-10 drawn to an invention nonelected without traverse in reply filed on October 18, 2005. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claim 20 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 20 the phrase "said interior extent end " is vague and indefinite. It is not clear if this is referring to the end extent or the interior extent.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 18-19 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Collura et al. (3,847,282). Collura '282 discloses a hanger, comprising an elongated substrate having a pair of opposed end extents (32 & 11); a pair of lateral fold lines positioned 33 and 23) inward of said end extents; and a central fold line (28) positioned

Art Unit: 3728

between said lateral fold lines and defining interior extents (31 & 26) between each of said lateral fold lines and the central fold line; said substrate being foldable about said central fold line to place said interior extents in contact (the interior extents are capable of being folded such as to place them in contact); said substrate being further foldable about said lateral fold lines to place said end extents in mutual contact, with said interior extents positioned there between (you can press the two end extents together when not in use, then the end extents will inherently press the interior extents together as well, which will place them in contact and position them between the end extents). See Figures 1-5 embodiments.

With respect to claim 21, note the adhesive layer (glue patch GP) in Figure 2 embodiment.

Allowable Subject Matter

6. Claims 1, 4-8, 11 and 14-17 are allowed.
7. Claim 20 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Response to Arguments

8. Applicant's arguments filed March 09, 2006 have been fully considered but they are not persuasive. Contrary to applicant's argument when you can press the two end extents together when not in use, the end extents will inherently press the interior extents together as well, which will place them in contact and position them between the end extents.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
